Art Unit: 1711

The following is an examiner's statement of reasons for allowance: The instant application is deemed to be allowable over DE 3127945, because the reference fails to disclose or render obvious the combination of features set forth within each of claims 1, 51, 52, and 53. Specifically, the reference fails to disclose applicant's specific relationship regarding the functionalities of the NCO-functional and OH-functional starting components, the required production of a preform, the requirements that the preform be crosslinked and flexible, the preform's required content of non-extractable, reactive double bonds, as determined by DSC, of at least 0.5 mmole/g, and the required shaping step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
